## PRESS RELEASE

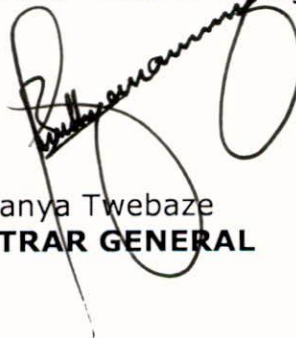

### **URSB UNVEILS SIMPLER COMPANY INCORPORATION PROCEDURES**

In line with Uganda Registration Services Bureau's (URSB) policy of continuous improvement of service delivery, streamlining registration processes and easing of "Starting a Business", URSB has now scrapped the earlier position of the applicant having to first pay for "Name Reservation" before reserving the company name.

With this administrative reform, payment for "Name Reservation" is currently done at the same time when the applicant is paying for company incorporation.

These innovations are in a bid to improve our efficiency and offer better, faster and smooth service delivery for our customers in line with World Bank requirements of "Ease of Doing Business" environment.

This, therefore, is to bring the above development to your attention and urge you to support the initiative to improve "Ease of Doing Business" and Uganda's economic competitiveness.

Bemanya Twebaze  
**REGISTRAR GENERAL**
