

## Information Security Management System Policy Statement (ISO/IEC 27001:2022).

Uganda Registration Services Bureau (URSB) is committed to protecting its information assets from all forms of threats, whether internal or external, deliberate or accidental.

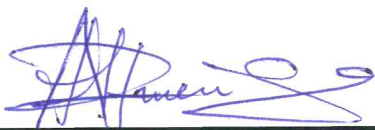

To achieve and sustain this, the Bureau has established and will continually maintain an Information Security Management System (ISMS) in accordance with the requirements of ISO/IEC 27001:2022.

Our core commitments:

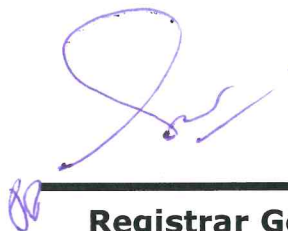

- **Preserve Confidentiality, Integrity, and Availability (CIA)** of all information assets at all times.
- **Manage risks effectively** through identifying, assessing and treating information security risks through appropriate controls relevant to business needs.
- **Ensure Compliance with legal, regulatory, and contractual requirements** including Uganda's Data Protection and Privacy Act as well as the requirements of ISO/IEC 27001:2022.
- **Drive Continuous improvement** of the ISMS through regular reviews and monitoring ISMS objectives.
- **Information security awareness** to employees, contractors, and other relevant third parties.

This policy applies to all individuals who handle, manage, or access the Bureau's information assets.

URSB's commitment is to ensure that information is handled securely and responsibly in order to support reliable service delivery, protect stakeholder interests, and maintain trust.

**Commissioner ICT & Innovation**
